

CV PLACEHOLDER - NOT THE REAL DOCUMENT

The original CV file could not be recovered during the elvislee.com migration to GitHub Pages.

The legacy site linked to a Google Drive share URL (drive.google.com/uc?id=1nCoq4l8Cmo9Ru39nNx4CcBZTJY9pj2tf) which now returns HTTP 404 - the file appears to have been deleted or its sharing permissions revoked.

Action needed: Elvis, please supply the real CV PDF and replace `public/assets/cv.pdf` with it.
